CORPORATE GOVERNANCE STATEMENT

Financial Year Ended 30 June 2024

During the year ended 30 June 2024, the Board of Directors ("Board") was responsible for the overall corporate governance of the Company, including the establishing and monitoring of key performance goals. The Board is committed to attaining standards of corporate governance that are commensurate with the Company's needs. In this regard, the Board has created a framework for managing the Company, including internal controls and a business risk management process. This framework is reflected, in part, in the policies and charters described below.

This Corporate Governance Statement discloses the extent to which the Company will follow the recommendations set by the ASX Corporate Governance Council in its publication Corporate Governance Principles and Recommendations – 4th Edition (**Recommendations**). The Recommendations are not mandatory, however the Recommendations that have not been followed for any part of the reporting period have been identified and reasons provided for not following them along with what (if any) alternative governance practices were adopted in lieu of the recommendation during that period.

The Company currently has the following sub-committees - the Remuneration Committee and the Audit and Risk Committee. Due to the current size and nature of the existing Board and the magnitude of the Company's operations, the Board does not consider that the Company will gain any benefit from further sub-committees at this stage, but will review this position as the Company grows. Under the Company's Board Charter, and in the absence of a specific committee, the duties that would ordinarily be assigned to that committee are currently carried out by the full Board under the written terms of reference for those committees.

The 2024 Corporate Governance Statement has been adopted by the Board on 17 October 2024.

The Company's corporate governance policies and practices as at the date of this Report are outlined below and are available on the Company's website (<https://www.globallithium.com.au>):

Diversity policy

The Board has adopted a diversity policy which provides a framework for the Company to achieve, amongst other things, a diverse and skilled Board and workforce, a workplace culture characterised by inclusive practices and behaviours for the benefit of all staff, and a work environment that values and utilises the contributions of all employees, irrespective of gender, culture, disability, age or religion.

The Company employs new employees and promotes current employees on the basis of performance, ability and attitude. The Board is continually reviewing its practices with a focus on ensuring that the selection process at all levels within the organisation is formal and transparent and that the workplace environment is open, fair and tolerant.

The Company, in keeping with the recommendations of the Corporate Governance Council provides the following information regarding the proportion of gender diversity in the organisation as at 30 June 2024:

	Proportion of female / total number of persons employed
Females employed in the Company as a whole	6 / 18
Females employed in the Company in senior executive positions*	0 / 4
Females appointed as a Director of the Company	1 / 5

The recommendations of the Corporate Governance Council relating to reporting require a Board to set measurable objectives for achieving diversity within the organisation, and to report against them on an annual basis. The Company has implemented measurable objectives as follows:

Measurable Objective	Objective Satisfied?	Comment
Adoption and promotion of a Formal Diversity Policy	Yes	The Company has adopted a formal diversity policy which has been made publicly available via the ASX and the Company's website.
To ensure Company policies are consistent with and aligned with the goals of the Diversity Policy	Yes	The Company's selection, remuneration and promotion practices are merit based and as such are consistent with the goals of the Company's Diversity Policy.
To provide flexible work and salary arrangements to accommodate family commitments, study and self-improvement goals, cultural traditions and other personal choices of current and potential employees.	Yes	The Company will, where considered reasonable and where compatible with the Company's operations, accommodate requests for flexible working arrangements.
To implement clear and transparent policies governing reward and recognition practices.	Yes	The Company grants reward and promotion based on merit and responsibility as part of its annual and ongoing review processes.
To provide relevant and challenging professional development and training opportunities for all employees.	Yes	The Company seeks to continually encourage self-improvement in all employees, irrespective of seniority, ability or experience, through external and internal training courses, regular staff meetings and relevant on job mentoring.

While gender balance at both Board and operations levels is discussed by the Board from time to time, the Company has not yet implemented specific measurable objectives regarding the proportion of females to be employed within the organisation or implement requirements for a proportion of female candidates for employment and Board positions. The Board considers that the setting of quantitative gender based measurable targets is not necessarily consistent with the merit and ability-based policies currently implemented by the Company, taken in the context of the current nature of the Company's operations, the stage of its development and the small size of its workforce.

The Board will consider the future implementation of gender-based diversity measurable objectives when more appropriate to the size and nature of the Company's operations and workforce.
